CHAIN LUBE

Characteristics
Chain lube is a biodegradable chain oil enriched with extra EP and AW additives, featuring extreme creeping properties. It lubricates and protects the chain links while reducing friction between various links and components. Suitable for all weather conditions.

Application
The unique formula easily penetrates between the links and from here protects the chain against rusting, squeaking and cracking Suitable for the bicycle chain. Extremely suitable for wet weather conditions.

Properties
- Biodegradable
- Free of GHS symbols
- Moisture-repellent
- Protects against corrosion and wear
- Extreme creeping action
